## **EXAMINER'S AMENDMENT/COMMENT**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on 6/25/2002. It is noted, however, that applicant has not filed a certified copy of the 2002-184421 application as required by 35 U.S.C. 119(b).

### **Reasons for Allowance**

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-5 is the inclusion therein of the limitations of forming an ink supply member of a material having a thermal expansion coefficient higher than that of the head substrate and bonded to the top plate to supply ink to each of the grooves while keeping the head substrate and the top plate superimposed one on the other and while applying to the head substrate and the top plate with a load as to maintain the head substrate and the top plate in parallel to each other. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

The primary reason for the indication of the allowability of claims 6-7 is the inclusion therein of the limitations of an ink supply member formed of a material having a thermal expansion coefficient higher than that of the head substrate and bonded to the top plate to supply ink to each of the grooves; and wherein the nozzles are arranged at positions at which the distance of each nozzle center deviated from a virtual straight line is not larger than 5 micrometer, the virtual straight line joining the center of nozzles

located at both ends or thereabouts in the nozzle arrange direction. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
